ABOUT

*Sunny Border,
Inc.*

AND THE

*Plants we
Grow!*

Our Nursery is located in Kensington in central Connecticut, and consists of almost 100 acres of rolling countryside. Of this, we have about 30 to 40 acres cultivated—accommodating a tremendous quantity of Perennials! The acreage is planted with what I sincerely believe to be the best collection of Hardy Perennials and Rock Plants to be found anywhere in New England. You will find here the modern Perennials as well as the old-fashioned favorites, and we are constantly adding new worth-while varieties to our stock. Thirty years of growing Perennials exclusively has given me a good idea of what people like and what constitutes a good Hardy Plant.

I do hope you will like the selection you will see as you glance through this Catalog. Besides the Perennials we are listing an extensive collection of the best varieties of high-grade spring flowering Dutch bulbs, such as Tulips, Daffodils, Hyacinths, Lilies, etc.

We have just finished an extremely busy season. That our customers like the plants we send them is proved by their enthusiastic letters.

Our careful packing of your plants and bulbs will insure their safe arrival and I point out the fact that there has been no increase in our already low prices, and that they include postage and express charges on any shipments sent east of the Mississippi.

Won't you give us a "try?"

Sincerely,

Robert Beumerup
